Traditional meeting Apoptosis and neoplasm was organised by the Committee for Genomics and Proteomics in Oncology of the Department of Medical Sciences of the Croatian Academy of Sciences and Arts.

In the organization of the Committee for Genomics and Proteomics in Oncology of the Department of Medical Sciences of the Croatian Academy of Sciences and Arts, the 9th Apoptosis and Innovation Symposium was held on Friday, April 19, 2024, in the hall of the CASA Library.

Traditional meeting Apoptosis and neoplasm was organised by the Committee for Genomics and Proteomics in Oncology of the De-

partment of Medical Sciences of the Croatian Academy of Sciences and Arts. This year, the scheduled meeting was held on April 19th under the auspices of the Croatian Academy of Sciences and Arts (CASA) in the CASA library building. The Organizing Committee, chaired by Prof. Božo Krušlin, with the help of the vice president's assistant Prof Monika Ulamec and the president of the executive board Prof Ivan Šamija, successfully led the meeting among distinguished lecturers on the first part of the Symposium: assistant prof Rosa Karlić, Anja Barešić, Marija Milavić. The second part was organised as a free topic.
